DEPARTMENT OF INSURANCE,

OTTAWA, March 2, 1918.

SIR,—I have the honour to enclose herewith an abstract of the business of Insurance in Canada for the year 1917. The Abstract has been made from the attested statements returned by the companies, but must be considered as subject to correction.

I shall have the honour to report to you at a subsequent date these statements in full after making the usual inspection at the Head Offices.

Fire Insurance.

The results of the year's operations in fire insurance in Canada may be shown by the following figures, the ratios for 1916 being also given for the purpose of comparison:—

Life Insurance.

The returns furnished by the life insurance companies show that the new business written in Canada amounted to \$281,958,430 as compared with \$231,101,625 in 1916, while the payments for death claims amounted to \$18,932,568 as compared with \$16,352,599 in 1916. The effect of the war on the losses incurred by life insurance companies in each of the years 1914, 1915, 1916 and 1917 can be seen from the tables on page 152, which have been compiled from information furnished by the companies in response to a special circular letter of enquiry issued by the Department early in the current year.

On pages 138 to 145 there will be found a statement of the various funds of those Canadian life insurance companies which have reached the stage at which dividends are being paid to either shareholders or policyholders, and also a statement of the revenue and expenditure in the participating, non-participating and shareholders' accounts respectively during the year 1917. These tables have been compiled for the first time from statements made by the companies in pursuance of the Department's circular issued in 1915.

Insurance Other than Fire and Life.

The premiums received and losses paid in respect of the various classes of casualty insurance in Canada are as follows:—

Total Insurance in Canada.

The Department has continued the practice adopted two years ago of collecting the more important information respecting the business of companies operating under provincial jurisdiction and a summary of this information will be found on pages 69, 105 and 153. The figures have been kindly furnished by the companies in response to a circular letter issued by the Department and while replies have not at this date been received from all, the omissions are not believed to be important.

I have the honour to be, sir,

Your obedient servant,

G. D. FINLAYSON,

Superintendent of Insurance.

To the Honourable Sir Thomas White,
Minister of Finance,
Ottawa.

SESSIONAL PAPER No. 9

Fire Insurance in Canada.

In Volume I of the report of last year there was included a tabulation giving certain information in respect of the business transacted by all fire insurance companies in Canada, including provincial as well as Dominion licensees, for the year 1916.

This year, circulars were sent to all provincial licensees asking for the figures in respect of the business for the year 1917 showing:—

1. Net amount of insurance written.
2. Net amount of insurance in force at the end of the year.
3. Net premiums received.
4. Net losses paid.

after deducting in each case reinsurance in companies licensed in Canada.

The inquiry extended to every company, stock or mutual, Canadian or foreign, carrying on business in Canada under provincial jurisdiction during the year 1917 and returns have with a few unimportant exceptions been received from all. The number of provincial licensees, including 14 British and foreign companies, making returns in respect of fire insurance was 205 of which 5 appear to have transacted business outside the provinces by which they were incorporated.

The tabulation which appears below and the tabulation of unlicensed fire insurance on page 70 show that the fire insurance effected in 1917 on property situated in Canada was as follows:—

Dominion licensees.....	\$ 4,039,485,082
Provincial licensees.....	356,092,971
Unlicensed companies.....	283,423,680
Total.....	\$ 4,679,001,733

The net premiums received and net losses paid by licensed companies during the year and the net amount of insurance in force in those companies at the end of the year are given below. The returns required to be filed by persons effecting insurance in unlicensed companies do not give this information:—

	Insurance in force Dec. 31, 1917.	Net premiums received.	Net losses paid.
Dominion licensees	\$ 4,166,011,013	\$ 31,269,677	\$ 16,427,529

SESSIONAL PAPER No. 9

Miscellaneous Insurance in Canada, 1917.

In Volume I of the report last year there was included a tabulation showing the total amount of premiums received and claims paid by companies and societies transacting casualty insurance in Canada, including provincial as well as Dominion licensees, for the year 1916.

This year circulars were sent to all provincial licensees asking for the same information in respect of the business for the year 1917, the figures required to be net after deducting reinsurance in companies licensed in Canada.

The inquiry extended to every company, Canadian or foreign, and to every fraternal or mutual benefit society, Canadian or foreign, operating in Canada under provincial jurisdiction and returns have, with a few unimportant exceptions, been received from all. The number of provincially incorporated companies making returns in respect of casualty insurance was 20, of which 4 also transacted fire or life insurance and 4 appear to have transacted business outside of the provinces by which they were incorporated. Returns were also received from 4 British or foreign companies of which one also transacted fire insurance. The number of fraternal or mutual benefit societies making the return was 93, including one United States society, and of these 37 carried on life insurance as well as sickness and accident insurance and 6 operated outside of the provinces in which their Head Offices were situated.

The net premiums received and net losses paid for miscellaneous classes of casualty insurance are as follows:—

Business transacted by	Net premiums received.	Net losses paid.
1. Dominion licensees.....	\$ 12,883,968	\$ 5,659,686

(a) This Association was incorporated by a Special Act of Parliament during the 1917 session with powers to acquire the assets and assume the liabilities of the Provincial Association of the same name operating under a charter granted by the Province of Quebec in 1892. The Association was licensed in December, 1917, and now operates under the provisions of the Insurance Act, 1917, of Canada. By the said Special Act the Association is required to maintain such reserve as the Superintendent of Insurance determines to be necessary, having regard to the benefits granted and the rates of contribution therefor.

(b) The Association is operating under the provisions of the Insurance Act, 1917, and is required to make assessments adequate with its other available funds to meet all obligations under its policies without deduction or abatement. The Association is not required by the Insurance Act (*See Sec. 107*) to maintain the reserve which is required of ordinary life insurance companies. In pursuance of a resolution passed at the triennial convention of the Association in August, 1913, the Grand Trustees sought and procured legislation during the 1914 session of Parliament authorizing the Grand Trustees to increase the rates of members to an amount sufficient to make the Association actuarially solvent. A revised schedule of rates prepared in pursuance of the said resolution and legislation came into effect on July 1, 1915. The valuation as at December 31, 1917, has not been completed.

(c) The society is operating under the assessment system and by the provisions of the Insurance Act is required to make assessments adequate with its other available funds to meet all obligations under its policies without deduction or abatement. While not required by the Insurance Act (*See Sec. 107*) to maintain the reserve which is required of ordinary life insurance companies, the Society on 1st January 1916, put into effect a readjustment of rates and benefits with the object of thereafter transacting business on an actuarial basis and maintaining an adequate reserve.

(d) Including a Special War reserve of \$1,000,000. The constitution and laws of this society adopted in 1913 provide that the Executive Council shall have power at any time to order such extra assessments as may be necessary to fulfil the requirements of any Act of the Parliament of Canada which may at any time be in force. The Act, 5 George V, chapter 75 requires the society to maintain in respect of all its outstanding mortuary benefit certificates or policies a reserve on the basis of the Foresters experience and four per cent annual interest.

(e) This Order is a friendly Society incorporated by Special Act of the Parliament of Canada and operates under the provisions of the Insurance Act. While not required by the Insurance Act, (*See Sec. 107*) to maintain the reserve which is required of ordinary life insurance companies the Order, on the 1st July, 1914, put into effect a readjustment of rates and benefits with the object of thereafter transacting business on an acturial basis and maintaining an adequate reserve.

SESSIONAL PAPER No. 9

WAR CLAIMS INCURRED BY INSURANCE COMPANIES
IN CANADA.

With a view to ascertaining the extent to which the life insurance companies in Canada have been affected by the war, a circular was sent to each company asking for the figures showing the war claims incurred during each of the four years 1914, 1915, 1916 and 1917. The claims were further classified in each year according as were incurred under policies held by

- (A) Enlisted soldiers killed in action, or dying from wounds;
- (B) Enlisted soldiers dying from other causes; and,
- (C) Other persons engaged in war service or civilians dying as a result of military operations.

In order that the enquiry might be as comprehensive as possible the circular was directed to the life insurance companies and the large number of fraternal societies operating under Provincial Licenses as well as to all such companies and societies licensed by this Department.

Returns have now been received from all companies and societies with the exception of a few small Provincial fraternal societies the figures for which will not appreciably affect the totals. The tabulation of the figures received gives the following results:—

SESSIONAL PAPER No. 9

LIFE INSURANCE IN CANADA, 1917.

The tables and detailed statements to be found in this report contain the figures of companies licensed by this Department only, and as there are a number of companies operating under provincial licenses the figures cannot be taken as a record of the entire life insurance business in Canada. The statistics for the provincial companies can be obtained later in the year from the reports of the various provincial governments but as it is desirable to have the figures combined so that a complete statement of the entire Canadian business can be obtained without reference to separate reports, the following table has been prepared from the figures appearing elsewhere in this volume respecting Dominion licensees and from replies received to a circular letter of inquiry sent by the Department to Provincial licensees early in the present year.

The number of provincial licensees contributing to the compilation is 53, of which 46 are fraternal societies. Of these fraternal societies, 32 are Provincial and 14 are foreign societies. All the ordinary life insurance companies are Provincial corporations and 4 of these companies transacted business in provinces other than those in which their Head Offices were situated.

* Dividends in excess of Hm 3½ per cent reserve. † Dividends in excess of Hm 3½ per cent reserve. ‡ Dividends in excess of Hm 4 per cent reserve. On policies continued in force the difference between the Hm 4 per cent reserve and the Hm 3½ per cent reserve, the company's basis of valuation at December 31, 1917, is made up out of unallotted surplus.

These policies at the end of the deferred dividend period are allowed a surrender value equal to the mean of the Hm 3½ and Hm 3 per cent reserve.

*No Quinquennial or Deferred Dividend policies have been issued since 1906.
†Reserve Basis, American Experience 3 1/2 per cent, which is increased in case of Life and Limited Payment Life Policies by an "extra reserve." The normal and extra reserve together form a "special reserve," which is given as the guaranteed cash value at the end of the distribution period. The reserve is calculated on the assumption that the maturity during the distribution period is that of the American Experience Table and that after the end of the distribution period a higher rate of mortality is experienced, which varies from 1.50 per cent of the American rate of mortality at attained age 35 to about 1.00 per cent at age 55, then increasing into rates shown by Table "Special Experience." It is not a true reserve of the policy, above dividend is payable in full in cash. Fitting such evidence the above figures are decreased by the respective differences between the "paid reserve" and the net American 4 per cent reserve and the balance only is payable in cash as a dividend.
‡The cash values in addition to the dividend is the American Experience 4 per cent reserve.

*The cash value in event of surrender at the end of the dividend period is the full 140 3/4% reserve in addition to the above dividend.

The company did not issue annual dividend policies for many years prior to 1905. Cash Surrender Values at the end of the deferred dividend period are based on the American Table of Mortality and 3% interest. There is no change in the basis of the Cash Surrender Values after the deferred dividend period.

Cash Surrender Values at the end of the deferred dividend period are based on the American Table of Mortality with 3% interest under Ordinary Life Policies, and on the Actuaries' Experience Table of Mortality with 4% interest under all other forms of policies. There is no change in the bases of the Cash Surrender Values after the deferred dividend periods, but the basis of reserves is Am 3%. Where the reserve is in excess of the cash value, the difference is made up out of a fund accumulated during the dividend period, based on the past experience of the Company, to cover the cost of the Option of continuing assurance after the completion of the dividend period.

The company does not issue Annual Dividend policies.
*† Dividends in excess of 10% reserve which is also the basis of cash surrender value and to reserve and after the completion of the dividend period. Under 10 year dividend policies there is an additional reserve held to provide for the guarantee at the end of the 20th year of the 10% reserve. This reserve is in addition to the 10% reserve upon surrender at the end of the 10th year.

The Company does not issue Annual Dividend or 10 Year Deferred Dividend Policies.

*These figures represent the complete schedule from which the profits on Canadian policies actually participating were ascertained.

NOTE.—The last quinquennial profit period of this company was completed on the 15th of November, 1915, but no bonus distribution was then made. The directors of the company however state that the valuation results would have warranted a bonus distribution in normal times but to protect the interest of holders of participating policies in force at the 15th of November, 1915, the Board have made a regulation that, at the next profit investigation which will take place as at the 15th of November, 1920, or at at such earlier date as may be fixed by them, policies existing at the date of that investigation shall share in any divisible profits which may then be distributed in respect of each full year's premium due and paid after the 15th of November, 1910. The company is at present paying an intermediate bonus, in the case of participating policies, five years or more in force, which become claims by death or maturity of 1 per cent for each full year's premium due and paid after November 15, 1910. Paid up policies also receive a similar intermediate bonus of 1 per cent per annum.

The dividends paid in 1917 are in the case of policies issued prior to Jan. 1, 1900 the excess of the Total Cash Settlement over the 0% (5) 3% reserve and in the case of policies issued since that date, over the higher special reserve voluntarily guaranteed and held by the Company against such deferred dividend policies.

In the case of policies with dividend periods of 10 years, where the reserve guaranteed was less than the 0% (5) 3% reserve, the difference was made up out of unallotted surplus.

1. Basis of surrender values at end of dividend period and thereafter is Actuaries' Table of Mortality with 4% interest. The reserve liability maintained in 1917 (the liability will be maintained on the same basis on policies continued in force after completion of dividend period) was the American 3 3/4%. Reserve plus one per cent to bring the liability up to the Canadian standard as shown by comparison of Company's calculation of Canadian reserve with Canadian Insurance Departments' calculation for year ended Dec. 31, 1912.

Note.

The Nova Scotia Fire Insurance Company has reinsured all its outstanding risks with the Home Insurance Company of New York. Its deposit has been released with the exception of \$5,000 par value which has been retained to provide for unsettled claims.

The Rimouski Fire Insurance Company is in liquidation and Theodore Meunier of Montreal has been appointed liquidator. The deposit of the company has been released but an accepted cheque for \$12,900 has been retained until the provisions of the Winding-up Act have been fully complied with.

The Central Canada Manufacturers Mutual Fire Insurance Company has given notice that all its outstanding policies have been cancelled in accordance with the statutory conditions of the policy, or replaced with other underwriters, and its deposit has been released with the exception of \$10,000 which has been retained to provide for unsettled claims.

The International Casualty Company has retired from business in Canada and its deposit has been released with the exception of \$2,000 par value which has been retained to provide for unsettled claims. Its Employers' Liability business has been reinsured in the Canada Accident Assurance Company and its Accident and Sickness policies have been cancelled and the unearned portion of the premiums returned to the insured.

The Anglo-American Fire Insurance Company is in liquidation, Mr. G. T. Clarkson, Toronto, having been appointed liquidator. The liquidator has entered into an agreement with the Western Assurance Company, Toronto, whereby all the outstanding Canadian policies and unpaid losses and claims for unearned premiums thereon as at Feb. 19, 1916, have been assumed by the Western Assurance Co. The deposit of the company, with the exception of \$7,727.35 par value, has been released.

The Germania Fire Insurance Company, by a reinsurance agreement dated Nov. 30, 1915, reinsured its Canadian business in the Western Assurance Co., Toronto. The deposit of the company is still in the hands of the Receiver General but the company has given notice, as required by the Insurance Act, of its intention to apply for its release.

The Factories Insurance Company, by a reinsurance agreement dated Dec. 22, 1916, reinsured its business in the Western Assurance Co., Toronto. The deposit of the company, to the accepted value of \$51,567, is still in the hands of the Receiver General but the company has given notice, as required by the Insurance Act, of its intention to apply for its release.
